Table of Contents

Preface **19**
About the Author 21
Acknowledgments 22
How This Book is Organized 22
Who Should Buy This Book? 22
Conventions Used in This Book 23
How to Report Errata 24
Where to Download Material About this Book 24
Section 1 Introductory Knowledge **25**
Chapter 1 How a Computer Works ***27***
1.1 Introduction 27
1.2 What is Hardware? 27
1.3 What is Software? 28
1.4 How a Computer Executes (Runs) a Program 28
1.5 Compilers and Interpreters 28
1.6 What is Source Code? 29
1.7 Review Questions: True/False 29
1.8 Review Questions: Multiple Choice 30
Chapter 2 Visual Basic ***33***
2.1 What is Visual Basic? 33
2.2 What is the Difference Between a Script and a Program? 33
2.3 Why You Should Learn Visual Basic 33
2.4 How Visual Basic Works 33
Chapter 3 Software Packages to Install ***37***
3.1 Visual Studio 37
3.2 How to Set Up Visual Studio Community on Windows 37
Review in "Introductory Knowledge" ***41***
Review Crossword Puzzles 41
Review Questions 43
Section 2 Getting Started with Visual Basic **45**
Chapter 4 Introduction to Basic Algorithmic Concepts ***47***
4.1 What is an Algorithm? 47
4.2 The Algorithm for Making a Cup of Tea 47
4.3 Properties of an Algorithm 47
4.4 Okay About Algorithms. But What is a Computer Program Anyway? 48
4.5 The Three Parties! 48
4.6 The Three Main Stages Involved in Creating an Algorithm 48
4.7 Flowcharts 49
Exercise 4.7-1 Finding the Average Value of Three Numbers 51
4.8 What are "Reserved Words"? 52
4.9 What is the Difference Between a Statement and a Command? 52

4.10 What is Structured Programming? 52
4.11 The Three Fundamental Control Structures 52
Exercise 4.11-1 Understanding Control Structures Using Flowcharts 53
4.12 Your First Visual Basic Program 53
4.13 What is the Difference Between a Syntax Error, a Logic Error, and a Runtime Error? 54
4.14 Commenting Your Code 55
4.15 User-Friendly Programs 55
4.16 Review Questions: True/False 56
4.17 Review Questions: Multiple Choice 57
Chapter 5 Variables and Constants 59
5.1 What is a Variable? 59
5.2 What is a Constant? 61
5.3 How Many Types of Variables and Constants Exist? 63
5.4 Rules for Naming Variables and Constants in Visual Basic 63
5.5 What Does the Phrase "Declare a Variable" Mean? 63
5.6 How to Declare Variables in Visual Basic 64
5.7 How to Declare Constants in Visual Basic 65
5.8 Review Questions: True/False 65
5.9 Review Questions: Multiple Choice 66
5.10 Review Exercises 67
Chapter 6 Handling Input and Output 69
6.1 Which Statement Outputs Messages and Results on a User's Screen? 69
6.2 How to Output Special Characters 70
6.3 Which Statement Lets the User Enter Data? 71
6.4 Review Questions: True/False 75
6.5 Review Questions: Multiple Choice 75
Chapter 7 Operators 77
7.1 The Value Assignment Operator 77
7.2 Arithmetic Operators 79
7.3 What is the Precedence of Arithmetic Operators? 80
7.4 Compound Assignment Operators 81
Exercise 7.4-1 Which Visual Basic Statements are Syntactically Correct? 82
Exercise 7.4-2 Finding Variable Types 83
7.5 String Operators 83
Exercise 7.5-1 Concatenating Names 83
7.6 Review Questions: True/False 84
7.7 Review Questions: Multiple Choice 85
7.8 Review Exercises 86
Chapter 8 Trace Tables 89
8.1 What is a Trace Table? 89
Exercise 8.1-1 Creating a Trace Table 89
Exercise 8.1-2 Swapping Values of Variables 90
Exercise 8.1-3 Swapping Values of Variables – An Alternative Approach 92
Exercise 8.1-4 Creating a Trace Table 92
Exercise 8.1-5 Creating a Trace Table 93

8.2 Review Questions: True/False ... 94
8.3 Review Exercises ... 94
Chapter 9 Using Visual Studio Community ... 95
9.1 Writing and Executing a Visual Basic Program in Visual Studio Community ... 95
9.2 What "Debugging" Means ... 100
9.3 Debugging Visual Basic Programs with Visual Studio Community ... 101
9.4 Review Exercises ... 105
Review in "Getting Started with Visual Basic" ... 107
Review Crossword Puzzles ... 107
Review Questions ... 109
Section 3 Sequence Control Structures ... 111
Chapter 10 Introduction to Sequence Control Structures ... 113
10.1 What is the Sequence Control Structure? ... 113
Exercise 10.1-1 Calculating the Area of a Rectangle ... 113
Exercise 10.1-2 Calculating the Area of a Circle ... 114
Exercise 10.1-3 Calculating Fuel Economy ... 115
Exercise 10.1-4 Where is the Car? Calculating Distance Traveled ... 115
Exercise 10.1-5 Kelvin to Fahrenheit ... 116
Exercise 10.1-6 Calculating Sales Tax ... 117
Exercise 10.1-7 Calculating a Sales Discount ... 117
Exercise 10.1-8 Calculating the Sales Tax Rate and Discount ... 118
10.2 Review Exercises ... 119
Chapter 11 Manipulating Numbers ... 121
11.1 Introduction ... 121
11.2 Useful Mathematical Functions, Methods, and More ... 121
Exercise 11.2-1 Calculating the Distance Between Two Points ... 125
Exercise 11.2-2 How Far Did the Car Travel? ... 126
11.3 Review Questions: True/False ... 127
11.4 Review Questions: Multiple Choice ... 128
11.5 Review Exercises ... 129
Chapter 12 Complex Mathematical Expressions ... 131
12.1 Writing Complex Mathematical Expressions ... 131
Exercise 12.1-1 Representing Mathematical Expressions in Visual Basic ... 131
Exercise 12.1-2 Writing a Mathematical Expression in Visual Basic ... 132
Exercise 12.1-3 Writing a Complex Mathematical Expression in Visual Basic ... 132
12.2 Review Exercises ... 134
Chapter 13 Exercises With a Quotient and a Remainder ... 137
13.1 Introduction ... 137
Exercise 13.1-1 Calculating the Quotient and Remainder of Integer Division ... 137
Exercise 13.1-2 Finding the Sum of Digits ... 138
Exercise 13.1-3 Displaying an Elapsed Time ... 142
Exercise 13.1-4 Reversing a Number ... 143
13.2 Review Exercises ... 144
Chapter 14 Manipulating Strings ... 145
14.1 Introduction ... 145

14.2 The Position of a Character in a String 145
14.3 Useful String Methods (Subprograms), and More 145
Exercise 14.3-1 Displaying a String Backwards 151
Exercise 14.3-2 Switching the Order of Names 151
Exercise 14.3-3 Creating a Login ID 152
Exercise 14.3-4 Creating a Random Word 153
Exercise 14.3-5 Finding the Sum of Digits 154
14.4 Review Questions: True/False 154
14.5 Review Questions: Multiple Choice 155
14.6 Review Exercises 157
Review in "Sequence Control Structures" ***159***
Review Crossword Puzzle 159
Review Questions 159
Section 4 Decision Control Structures **161**
Chapter 15 Making Questions ***163***
15.1 Introduction 163
15.2 What is a Boolean Expression? 163
15.3 How to Write Simple Boolean Expressions 163
Exercise 15.3-1 Filling in the Table 164
15.4 Logical Operators and Complex Boolean Expressions 164
15.5 Assigning the Result of a Boolean Expression to a Variable 166
15.6 What is the Order of Precedence of Logical Operators? 166
15.7 What is the Order of Precedence of Arithmetic, Comparison, and Logical Operators? 167
Exercise 15.7-1 Filling in the Truth Table 167
Exercise 15.7-2 Calculating the Results of Complex Boolean Expressions 168
Exercise 15.7-3 Converting English Sentences to Boolean Expressions 169
15.8 How to Negate Boolean Expressions 171
Exercise 15.8-1 Negating Boolean Expressions 172
15.9 Review Questions: True/False 173
15.10 Review Questions: Multiple Choice 174
15.11 Review Exercises 175
Chapter 16 The Single-Alternative Decision Structure ***177***
16.1 The Single-Alternative Decision Structure 177
Exercise 16.1-1 Trace Tables and Single-Alternative Decision Structures 179
Exercise 16.1-2 The Absolute Value of a Number 180
16.2 Review Questions: True/False 181
16.3 Review Questions: Multiple Choice 182
16.4 Review Exercises 182
Chapter 17 The Dual-Alternative Decision Structure ***185***
17.1 The Dual-Alternative Decision Structure 185
Exercise 17.1-1 Finding the Output Message 185
Exercise 17.1-2 Trace Tables and Dual-Alternative Decision Structures 186
Exercise 17.1-3 Who is the Greatest? 187
Exercise 17.1-4 Finding Odd and Even Numbers 189
Exercise 17.1-5 Weekly Wages 190
17.2 Review Questions: True/False 191

17.3 Review Questions: Multiple Choice ... 192
17.4 Review Exercises ... 193
Chapter 18 The Multiple-Alternative Decision Structure ... 197
18.1 The Multiple-Alternative Decision Structure ... 197
Exercise 18.1-1 Trace Tables and Multiple-Alternative Decision Structures ... 198
Exercise 18.1-2 Counting the Digits ... 200
18.2 Review Questions: True/False ... 202
18.3 Review Exercises ... 202
Chapter 19 The Case Decision Structure ... 205
19.1 The Case Decision Structure ... 205
Exercise 19.1-1 The Days of the Week ... 207
19.2 Review Questions: True/False ... 208
19.3 Review Exercises ... 209
Chapter 20 Nested Decision Control Structures ... 213
20.1 What are Nested Decision Control Structures? ... 213
Exercise 20.1-1 Trace Tables and Nested Decision Control Structures ... 214
Exercise 20.1-2 Positive, Negative or Zero? ... 216
20.2 A Mistake That You Will Probably Make! ... 217
20.3 Review Questions: True/False ... 221
20.4 Review Exercises ... 221
Chapter 21 More about Flowcharts with Decision Control Structures ... 225
21.1 Introduction ... 225
21.2 Converting Visual Basic Programs to Flowcharts ... 225
Exercise 21.2-1 Designing the Flowchart ... 226
Exercise 21.2-2 Designing the Flowchart ... 227
Exercise 21.2-3 Designing the Flowchart ... 228
21.3 Converting Flowcharts to Visual Basic Programs ... 230
Exercise 21.3-1 Writing the Visual Basic Program ... 230
Exercise 21.3-2 Writing the Visual Basic Program ... 231
Exercise 21.3-3 Writing the Visual Basic Program ... 233
21.4 Review Exercises ... 235
Chapter 22 Tips and Tricks with Decision Control Structures ... 241
22.1 Introduction ... 241
22.2 Choosing a Decision Control Structure ... 241
22.3 Streamlining the Decision Control Structure ... 242
Exercise 22.3-1 "Shrinking" the Algorithm ... 243
Exercise 22.3-2 "Shrinking" the Visual Basic Program ... 243
Exercise 22.3-3 "Shrinking" the Algorithm ... 244
22.4 Logical Operators – to Use, or not to Use: That is the Question! ... 246
Exercise 22.4-1 Rewriting the Code ... 248
Exercise 22.4-2 Rewriting the Code ... 249
22.5 Merging Two or More Single-Alternative Decision Structures ... 249
Exercise 22.5-1 Merging the Decision Control Structures ... 250
Exercise 22.5-2 Merging the Decision Control Structures ... 251
22.6 Replacing Two Single-Alternative Decision Structures with a Dual-Alternative One ... 252
Exercise 22.6-1 "Merging" the Decision Control Structures ... 253

22.7 Put the Boolean Expressions Most Likely to be True First....254
Exercise 22.7-1 Rearranging the Boolean Expressions....255
22.8 Why is Code Indentation so Important?....255
22.9 Review Questions: True/False....257
22.10 Review Questions: Multiple Choice....257
22.11 Review Exercises....259
Chapter 23 More Exercises with Decision Control Structures....265
23.1 Simple Exercises with Decision Control Structures....265
Exercise 23.1-1 Both Odds or Both Evens?....265
Exercise 23.1-2 Is it an Integer?....265
Exercise 23.1-3 Validating Data Input and Finding Odd and Even Numbers....266
Exercise 23.1-4 Converting Gallons to Liters, and Vice Versa....267
Exercise 23.1-5 Converting Gallons to Liters, and Vice Versa (with Data Validation)....268
Exercise 23.1-6 Where is the Tollkeeper?....270
Exercise 23.1-7 The Most Scientific Calculator Ever!....271
23.2 Finding Minimum and Maximum Values with Decision Control Structures....271
Exercise 23.2-1 Finding the Name of the Heaviest Person....273
23.3 Decision Control Structures in Solving Mathematical Problems....274
Exercise 23.3-1 Finding the Value of y....274
Exercise 23.3-2 Finding the Values of y....275
Exercise 23.3-3 Solving the Linear Equation $ax + b = 0$....276
Exercise 23.3-4 Solving the Quadratic Equation $ax^2 + bx + c = 0$....278
23.4 Exercises with Series of Consecutive Ranges of Values....280
Exercise 23.4-1 Calculating the Discount....281
Exercise 23.4-2 Validating Data Input and Calculating the Discount....282
Exercise 23.4-3 Sending a Parcel....284
Exercise 23.4-4 Finding the Values of y....287
Exercise 23.4-5 Progressive Rates and Electricity Consumption....289
Exercise 23.4-6 Progressive Rates and Text Messaging Services....290
23.5 Exercises of a General Nature with Decision Control Structures....291
Exercise 23.5-1 Finding a Leap Year....291
Exercise 23.5-2 Displaying the Days of the Month....292
Exercise 23.5-3 Is the Number a Palindrome?....294
Exercise 23.5-4 Checking for Proper Capitalization and Punctuation....296
23.6 Review Exercises....297
Review in "Decision Control Structures"....301
Review Crossword Puzzle....301
Review Questions....301
Section 5 Loop Control Structures....303
Chapter 24 Introduction to Loop Control Structures....305
24.1 What is a Loop Control Structure?....305
24.2 From Sequence Control to Loop Control Structures....305
24.3 Review Questions: True/False....307
Chapter 25 Pre-Test, Mid-Test and Post-Test Loop Structures....309
25.1 The Pre-Test Loop Structure....309
Exercise 25.1-1 Designing the Flowchart and Counting the Total Number of Iterations....310

Exercise 25.1-2 Counting the Total Number of Iterations ... 311
Exercise 25.1-3 Designing the Flowchart and Counting the Total Number of Iterations ... 311
Exercise 25.1-4 Counting the Total Number of Iterations ... 312
Exercise 25.1-5 Finding the Sum of Four Numbers ... 312
Exercise 25.1-6 Finding the Sum of Odd Numbers ... 313
Exercise 25.1-7 Finding the Sum of N Numbers ... 314
Exercise 25.1-8 Finding the Sum of an Unknown Quantity of Numbers ... 315
Exercise 25.1-9 Finding the Product of 20 Numbers ... 316
25.2 The Post-Test Loop Structure ... 317
Exercise 25.2-1 Designing the Flowchart and Counting the Total Number of Iterations ... 318
Exercise 25.2-2 Counting the Total Number of Iterations ... 319
Exercise 25.2-3 Designing the Flowchart and Counting the Total Number of Iterations ... 319
Exercise 25.2-4 Counting the Total Number of Iterations ... 320
Exercise 25.2-5 Finding the Product of N Numbers ... 321
25.3 The Mid-Test Loop Structure ... 322
Exercise 25.3-1 Designing the Flowchart and Counting the Total Number of Iterations ... 323
25.4 Review Questions: True/False ... 324
25.5 Review Questions: Multiple Choice ... 326
25.6 Review Exercises ... 328
Chapter 26 The `For` statement ... 335
26.1 The `For` statement ... 335
Exercise 26.1-1 Creating the Trace Table ... 337
Exercise 26.1-2 Creating the Trace Table ... 339
Exercise 26.1-3 Counting the Total Number of Iterations ... 340
Exercise 26.1-4 Finding the Sum of Four Numbers ... 340
Exercise 26.1-5 Finding the Square Roots from 0 to N ... 341
Exercise 26.1-6 Finding the Sum of $1 + 2 + 3 + \ldots + 100$ ... 342
Exercise 26.1-7 Finding the Product of $2 \times 4 \times 6 \times 8 \times 10$ ... 343
Exercise 26.1-8 Finding the Sum of $2^2 + 4^2 + 6^2 + \ldots (2N)^2$ ... 344
Exercise 26.1-9 Finding the Sum of $3^3 + 6^6 + 9^9 + \ldots (3N)^{3N}$ ... 344
Exercise 26.1-10 Finding the Average Value of Positive Numbers ... 345
Exercise 26.1-11 Counting the Vowels ... 346
26.2 Rules that Apply to For-Loops ... 346
Exercise 26.2-1 Counting the Total Number of Iterations ... 347
Exercise 26.2-2 Counting the Total Number of Iterations ... 347
Exercise 26.2-3 Counting the Total Number of Iterations ... 348
Exercise 26.2-4 Counting the Total Number of Iterations ... 349
Exercise 26.2-5 Finding the Sum of N Numbers ... 349
26.3 Review Questions: True/False ... 350
26.4 Review Questions: Multiple Choice ... 351
26.5 Review Exercises ... 353
Chapter 27 Nested Loop Control Structures ... 357
27.1 What is a Nested Loop? ... 357
Exercise 27.1-1 Say "Hello Zeus". Counting the Total Number of Iterations. ... 358
Exercise 27.1-2 Creating the Trace Table ... 358
27.2 Rules that Apply to Nested Loops ... 360
Exercise 27.2-1 Breaking the First Rule ... 360
Exercise 27.2-2 Breaking the Second Rule ... 360

27.3 Review Questions: True/False 361
27.4 Review Questions: Multiple Choice 362
27.5 Review Exercises 364
Chapter 28 Tips and Tricks with Loop Control Structures 367
28.1 Introduction 367
28.2 Choosing a Loop Control Structure 367
28.3 The "Ultimate" Rule 367
28.4 Breaking Out of a Loop 371
28.5 Cleaning Out Your Loops 373
Exercise 28.5-1 Cleaning Out the Loop 373
Exercise 28.5-2 Cleaning Out the Loop 374
28.6 Endless Loops and How to Avoid Them 375
28.7 The "From Inner to Outer" Method 376
28.8 Review Questions: True/False 377
28.9 Review Questions: Multiple Choice 378
28.10 Review Exercises 379
Chapter 29 Flowcharts with Loop Control Structures 383
29.1 Introduction 383
29.2 Converting Visual Basic Programs to Flowcharts 383
Exercise 29.2-1 Designing the Flowchart Fragment 384
Exercise 29.2-2 Designing the Flowchart Fragment 384
Exercise 29.2-3 Designing the Flowchart 385
Exercise 29.2-4 Designing the Flowchart Fragment 386
Exercise 29.2-5 Designing the Flowchart 387
Exercise 29.2-6 Designing the Flowchart 388
29.3 Converting Flowcharts to Visual Basic Programs 389
Exercise 29.3-1 Writing the Visual Basic Program 390
Exercise 29.3-2 Writing the Visual Basic Program 391
Exercise 29.3-3 Writing the Visual Basic Program 392
Exercise 29.3-4 Writing the Visual Basic Program 393
29.4 Review Exercises 396
Chapter 30 More Exercises with Loop Control Structures 403
30.1 Simple Exercises with Loop Control Structures 403
Exercise 30.1-1 Counting the Numbers According to Which is Greater 403
Exercise 30.1-2 Counting the Numbers According to Their Digits 404
Exercise 30.1-3 How Many Numbers Fit in a Sum 404
Exercise 30.1-4 Finding the Total Number of Positive Integers 405
Exercise 30.1-5 Iterating as Many Times as the User Wishes 406
Exercise 30.1-6 Finding the Sum of the Digits 407
30.2 Exercises with Nested Loop Control Structures 409
Exercise 30.2-1 Displaying all Three-Digit Integers that Contain a Given Digit 409
Exercise 30.2-2 Displaying all Instances of a Specified Condition 411
30.3 Data Validation with Loop Control Structures 412
Exercise 30.3-1 Finding Odd and Even Numbers - Validation Without Error Messages 413
Exercise 30.3-2 Finding Odd and Even Numbers - Validation with One Error Message 414
Exercise 30.3-3 Finding Odd and Even Numbers - Validation with Individual Error Messages 415
Exercise 30.3-4 Finding the Sum of Four Numbers 416

30.4 Finding Minimum and Maximum Values with Loop Control Structures ... 417
Exercise 30.4-1 Validating and Finding the Minimum and the Maximum Value ... 419
Exercise 30.4-2 Validating and Finding the Hottest Planet ... 419
Exercise 30.4-3 "Making the Grade" ... 421
30.5 Using Loop Control Structures to Solve Mathematical Problems ... 423
Exercise 30.5-1 Calculating the Area of as Many Triangles as the User Wishes ... 423
Exercise 30.5-2 Finding x and y ... 424
Exercise 30.5-3 The Russian Multiplication Algorithm ... 425
Exercise 30.5-4 Finding the Number of Divisors ... 426
Exercise 30.5-5 Is the Number a Prime? ... 428
Exercise 30.5-6 Finding all Prime Numbers from 1 to N ... 429
Exercise 30.5-7 Heron's Square Root ... 430
Exercise 30.5-8 Calculating π ... 432
Exercise 30.5-9 Approximating a Real with a Fraction ... 433
30.6 Exercises of a General Nature with Loop Control Structures ... 434
Exercise 30.6-1 Fahrenheit to Kelvin, from 0 to 100 ... 434
Exercise 30.6-2 Rice on a Chessboard ... 435
Exercise 30.6-3 Just a Poll ... 436
Exercise 30.6-4 Is the Message a Palindrome? ... 436
30.7 Review Questions: True/False ... 439
30.8 Review Exercises ... 440
Review in "Loop Control Structures" ... ***447***
Review Crossword Puzzle ... 447
Review Questions ... 447
Section 6 Data Structures in Visual Basic ... **449**
Chapter 31 One-Dimensional Arrays and Dictionaries ... ***451***
31.1 Introduction ... 451
31.2 What is an Array? ... 452
Exercise 31.2-1 Designing an Array ... 453
Exercise 31.2-2 Designing Arrays ... 454
Exercise 31.2-3 Designing Arrays ... 455
31.3 Creating One-Dimensional Arrays in Visual Basic ... 455
31.4 How to Get Values from a One-Dimensional Array ... 456
Exercise 31.4-1 Creating the Trace Table ... 457
Exercise 31.4-2 Using a Non-Existing Index ... 457
31.5 How to Alter the Value of an Array Element ... 458
31.6 How to Iterate Through a One-Dimensional Array ... 458
Exercise 31.6-1 Finding the Sum ... 459
31.7 How to Add User-Entered Values to a One-Dimensional Array ... 460
Exercise 31.7-1 Displaying Words in Reverse Order ... 461
Exercise 31.7-2 Displaying Positive Numbers in Reverse Order ... 462
Exercise 31.7-3 Finding the Average Value ... 462
Exercise 31.7-4 Displaying Reals Only ... 463
Exercise 31.7-5 Displaying Elements with Odd-Numbered Indexes ... 464
Exercise 31.7-6 Displaying Even Numbers in Odd–Numbered Index Positions ... 465
31.8 What is a Dictionary? ... 465
31.9 Creating Dictionaries in Visual Basic ... 466

31.10 How to Get a Value from a Dictionary 467
Exercise 31.10-1 Using a Non-Existing Key in Dictionaries 467
31.11 How to Alter the Value of a Dictionary Element 468
Exercise 31.11-1 Assigning a Value to a Non-Existing Key 468
31.12 How to Iterate Through a Dictionary 468
31.13 Review Questions: True/False 469
31.14 Review Questions: Multiple Choice 472
31.15 Review Exercises 475
Chapter 32 Two-Dimensional Arrays 479
32.1 Creating Two-Dimensional Arrays in Visual Basic 479
32.2 How to Get Values from Two-Dimensional Arrays 480
Exercise 32.2-1 Creating the Trace Table 481
32.3 How to Iterate Through a Two-Dimensional Array 482
32.4 How to Add User-Entered Values to a Two-Dimensional Array 485
Exercise 32.4-1 Displaying Reals Only 486
Exercise 32.4-2 Displaying Odd Columns Only 486
32.5 What's the Story on Variables `i` and `j`? 487
32.6 Square Matrices 487
Exercise 32.6-1 Finding the Sum of the Elements of the Main Diagonal 488
Exercise 32.6-2 Finding the Sum of the Elements of the Antidiagonal 489
Exercise 32.6-3 Filling in the Array 490
32.7 Review Questions: True/False 492
32.8 Review Questions: Multiple Choice 494
32.9 Review Exercises 496
Chapter 33 Tips and Tricks with Arrays 501
33.1 Introduction 501
33.2 Processing Each Row Individually 501
Exercise 33.2-1 Finding the Average Value 502
33.3 Processing Each Column Individually 504
Exercise 33.3-1 Finding the Average Value 506
33.4 How to Use More Than One Data Structures in a Program 508
Exercise 33.4-1 Finding the Average Value of Two Grades 508
Exercise 33.4-2 Finding the Average Value of More than Two Grades 509
Exercise 33.4-3 Using an Array Along with a Dictionary 512
33.5 Creating a One-Dimensional Array from a Two-Dimensional Array 513
33.6 Creating a Two-Dimensional Array from a One-Dimensional Array 514
33.7 Review Questions: True/False 515
33.8 Review Questions: Multiple Choice 516
33.9 Review Exercises 517
Chapter 34 More Exercises with Arrays 521
34.1 Simple Exercises with Arrays 521
Exercise 34.1-1 Creating an Array that Contains the Average Values of its Neighboring Elements 521
Exercise 34.1-2 Creating an Array with the Greatest Values 522
Exercise 34.1-3 Merging One-Dimensional Arrays 522
Exercise 34.1-4 Merging Two-Dimensional Arrays 524
Exercise 34.1-5 Creating Two Arrays – Separating Positive from Negative Values 525

Exercise 34.1-6 Creating an Array with Those who Contain Digit 5 527
34.2 Data Validation with Arrays 528
Exercise 34.2-1 Displaying Odds in Reverse Order – Validation Without Error Messages 529
Exercise 34.2-2 Displaying Odds in Reverse Order – Validation with One Error Message 530
Exercise 34.2-3 Displaying Odds in Reverse Order – Validation with Individual Error Messages 530
34.3 Finding Minimum and Maximum Values in Arrays 531
Exercise 34.3-1 Which Depth is the Greatest? 531
Exercise 34.3-2 Which Lake is the Deepest? 532
Exercise 34.3-3 Which Lake, in Which Country, Having Which Average Area, is the Deepest? 533
Exercise 34.3-4 Which Students Have got the Greatest Grade? 535
Exercise 34.3-5 Finding the Minimum Value of a Two-Dimensional Array 536
Exercise 34.3-6 Finding the City with the Coldest Day 538
Exercise 34.3-7 Finding the Minimum and the Maximum Value of Each Row 539
34.4 Sorting Arrays 542
Exercise 34.4-1 The Bubble Sort Algorithm – Sorting One-Dimensional Arrays with Numeric Values 543
Exercise 34.4-2 Sorting One-Dimensional Arrays with Alphanumeric Values 547
Exercise 34.4-3 Sorting One-Dimensional Arrays While Preserving the Relationship with a Second Array 548
Exercise 34.4-4 Sorting Last and First Names 549
Exercise 34.4-5 Sorting a Two-Dimensional Array 552
Exercise 34.4-6 The Modified Bubble Sort Algorithm – Sorting One-Dimensional Arrays 553
Exercise 34.4-7 The Five Best Scorers 554
Exercise 34.4-8 The Selection Sort Algorithm – Sorting One-Dimensional Arrays 557
Exercise 34.4-9 Sorting One-Dimensional Arrays While Preserving the Relationship with a Second Array 559
Exercise 34.4-10 The Insertion Sort Algorithm – Sorting One-Dimensional Arrays 560
Exercise 34.4-11 The Three Worst Elapsed Times 562
34.5 Searching Elements in Data Structures 564
Exercise 34.5-1 The Linear Search Algorithm – Searching in a One-Dimensional Array that may Contain the Same Value Multiple Times 564
Exercise 34.5-2 Display the Last Names of All Those People Who Have the Same First Name 565
Exercise 34.5-3 The Linear Search Algorithm – Searching in a One-Dimensional Array that Contains Unique Values 566
Exercise 34.5-4 Searching for a Given Social Security Number 567
Exercise 34.5-5 The Linear Search Algorithm – Searching in a Two-Dimensional Array that May Contain the Same Value Multiple Times 568
Exercise 34.5-6 Searching for Wins, Losses and Ties 569
Exercise 34.5-7 The Linear Search Algorithm – Searching in a Two-Dimensional Array that Contains Unique Values 571
Exercise 34.5-8 Checking if a Value Exists in all Columns 572
Exercise 34.5-9 The Binary Search Algorithm – Searching in a Sorted One-Dimensional Array 574
Exercise 34.5-10 Display all the Historical Events for a Country 576
Exercise 34.5-11 Searching in Each Column of a Two-Dimensional Array 578
34.6 Exercises of a General Nature with Arrays 581
Exercise 34.6-1 On Which Days was There a Possibility of Snow? 581
Exercise 34.6-2 Was There Any Possibility of Snow? 581
Exercise 34.6-3 In Which Cities was There a Possibility of Snow? 583
Exercise 34.6-4 Display from Highest to Lowest Grades by Student, and in Alphabetical Order 586
Exercise 34.6-5 Archery at the Summer Olympics 588
34.7 Review Questions: True/False 589
34.8 Review Exercises 591

Review in "Data Structures in Visual Basic" *599*
Review Crossword Puzzle 599
Review Questions 599

Section 7 Subprograms **601**

Chapter 35 Introduction to Subprograms *603*
35.1 What Exactly is a Subprogram? 603
35.2 What is Procedural Programming? 603
35.3 What is Modular Programming? 604
35.4 Review Questions: True/False 605

Chapter 36 User-Defined Subprograms *607*
36.1 Subprograms that Return Values 607
36.2 How to Make a Call to a Function 608
36.3 Subprograms that Return no Values 610
36.4 How to Make a Call to a Subprocedure 611
36.5 Formal and Actual Arguments 612
36.6 How Does a Function Execute? 612
Exercise 36.6-1 Back to Basics – Calculating the Sum of Two Numbers 614
Exercise 36.6-2 Calculating the Sum of Two Numbers Using Fewer Lines of Code! 615
36.7 How Does a Subprocedure Execute? 616
Exercise 36.7-1 Back to Basics – Displaying the Absolute Value of a Number 617
36.8 Review Questions: True/False 618
36.9 Review Exercises 620

Chapter 37 Tips and Tricks with Subprograms *625*
37.1 Can Two Subprograms use Variables of the Same Name? 625
37.2 Can a Subprogram Call Another Subprogram? 626
37.3 Passing Arguments by Value and by Reference 627
Exercise 37.3-1 Finding the Logic Error 629
37.4 Passing and/or Returning an Array 629
37.5 Default Argument Values (Optional Arguments) and Named Arguments 632
37.6 Overloading Functions and Subprocedures 633
37.7 The Scope of a Variable 636
37.8 Converting Parts of Code into Subprograms 637
37.9 Recursion 642
Exercise 37.9-1 Calculating the Fibonacci Sequence Recursively 644
37.10 Review Questions: True/False 646
37.11 Review Exercises 647

Chapter 38 More Exercises with Subprograms *653*
38.1 Simple Exercises with Subprograms 653
Exercise 38.1-1 Designing the Flowchart 653
Exercise 38.1-2 Designing the Flowchart 654
Exercise 38.1-3 A Simple Currency Converter 655
Exercise 38.1-4 A More Complete Currency Converter 656
Exercise 38.1-5 Finding the Average Values of Positive Integers 658
Exercise 38.1-6 Finding the Sum of Odd Positive Integers 659
Exercise 38.1-7 Finding the Values of y 660

38.2 Exercises of a General Nature with Subprograms ... 661
Exercise 38.2-1 Validating Data Input Using a Subprogram ... 661
Exercise 38.2-2 Sorting an Array Using a Subprogram ... 662
Exercise 38.2-3 Progressive Rates and Electricity Consumption ... 664
Exercise 38.2-4 Roll, Roll, Roll the… Dice! ... 665
Exercise 38.2-5 How Many Times Does Each Number of the Dice Appear? ... 666
