

Table of Contents

Preface	13
About the Authors.....	13
Who Should Buy This Book?.....	14
Where to Find Answers to Review Questions and Exercises.....	14
How to Report Errata.....	14
Conventions Used in This Book.....	15
Chapter 1 How a Computer Works	17
1.1 Introduction.....	17
1.2 What is Hardware?.....	17
1.3 What is Software?.....	18
1.4 How a Computer Executes (Runs) a Program.....	18
1.5 Compilers and Interpreters.....	19
1.6 What is Source Code?.....	20
1.7 Review Questions: True/False.....	20
1.8 Review Questions: Multiple Choice.....	20
1.9 Review Questions.....	22
Chapter 2 Visual Basic and Integrated Development Environments (IDEs)	23
2.1 What is Visual Basic?.....	23
2.2 How Visual Basic Works.....	23
2.3 Integrated Development Environments.....	24
2.4 Visual Studio.....	24
2.5 How to Set Up Visual Studio Community.....	25
2.6 Review Questions.....	27
Chapter 3 Basic Algorithmic Concepts	29
3.1 What is an Algorithm?.....	29
3.2 The Algorithm for Making a Cup of Tea.....	29
3.3 Okay about Algorithms. But what is a Computer Program Anyway?.....	30
3.4 The Three Parties!.....	30
3.5 The Three Main Stages Involved in Creating an Algorithm.....	30
3.6 What are “Reserved Words”?.....	31
3.7 Your First Visual Basic Program.....	31
3.8 What is the Difference between a Syntax Error, a Logic Error, and a Runtime Error?.....	32
3.9 What Does “Debugging” Mean?.....	33
3.10 Commenting Your Code.....	33
3.11 Review Questions: True/False.....	34
3.12 Review Questions: Multiple Choice.....	35

3.1.3	Review Questions	36
Chapter 4 Variables and Constants		37
4.1	What is a Variable?.....	37
4.2	What is a Constant?.....	39
4.3	How Many Types of Variables and Constants Exist?	39
4.4	Rules for Naming Variables and Constants in Visual Basic	39
4.5	What Does the Phrase “Declare a Variable” Mean?	40
4.6	How to Declare Variables in Visual Basic	40
4.7	How to Declare Constants in Visual Basic	42
4.8	Review Questions: True/False	42
4.9	Review Questions: Multiple Choice.....	43
4.10	Review Exercises	44
4.11	Review Questions	44
Chapter 5 Handling Input and Output		45
5.1	Which Statement Outputs Messages and Results to a User’s Screen?.....	45
5.2	How to Alter the Default Behavior of a Write Method.....	47
5.3	Which Statement Lets the User Enter Data? Which Statement Prompts the User to Enter Data?	49
5.4	Review Questions: True/False	51
5.5	Review Questions: Multiple Choice.....	51
5.6	Review Questions	51
Chapter 6 Operators		53
6.1	The Value Assignment Operator	53
6.2	Arithmetic Operators	54
6.3	What is the Precedence of Arithmetic Operators?.....	55
6.4	Compound Assignment Operators	56
	Exercise 6.4.1 – Which Visual Basic Statements are Syntactically Correct?.....	57
	Exercise 6.4.2 – Finding Variable Types.....	57
6.5	String Operators.....	58
	Exercise 6.5.1 – Concatenating Names.....	58
6.6	Review Questions: True/False.....	59
6.7	Review Questions: Multiple Choice.....	60
6.8	Review Exercises	61
6.9	Review Questions	62
Chapter 7 Using Visual Studio.....		63
7.1	Creating a New Visual Basic Project	63
7.2	Writing and Executing a Visual Basic Program.....	64
7.3	Debugging Visual Basic Programs with Visual Studio.....	67
Chapter 8 Writing your First Real Programs		71

8.1	Introduction.....	71
	Exercise 8.1.1 – Calculating the Area of a Rectangle	72
	Exercise 8.1.2 – Calculating the Area of a Circle.....	72
	Exercise 8.1.3 – Fahrenheit to Celsius.....	73
8.2	Review Exercises	74
8.3	Review Questions.....	75
Chapter 9 Manipulating Numbers		77
9.1	Introduction.....	77
9.2	Useful Methods and Functions.....	77
9.3	Review Questions: True/False.....	80
9.4	Review Exercises	80
9.5	Review Questions.....	81
Chapter 10 Manipulating Strings		83
10.1	Introduction.....	83
10.2	Retrieving Individual Characters from a String.....	83
	Exercise 10.2.1 – Displaying a String Backward	85
10.3	Useful Methods and Properties	85
	Exercise 10.3.1 – Creating a Login ID.....	88
	Exercise 10.3.2 – Switching the Order of Names	89
	Exercise 10.3.3 – Creating a Random Word.....	90
10.4	Review Questions: True/False.....	91
10.5	Review Questions: Multiple Choice.....	92
10.6	Review Exercises	93
10.7	Review Questions.....	94
Chapter 11 Making Questions		95
11.1	Introduction.....	95
11.2	How to Write Simple Questions.....	95
	Exercise 11.2.1 – Filling in the Table	96
11.3	Logical Operators and Complex Questions.....	97
11.4	What is the Order of Precedence of Logical Operators?.....	99
11.5	What is the Order of Precedence of Arithmetic, Comparison, and Logical Operators?.....	99
	Exercise 11.5.1 – Filling in the Truth Table.....	100
11.6	Converting English Sentences to Boolean Expressions	101
11.7	Review Questions: True/False.....	103
11.8	Review Questions: Multiple Choice.....	104
11.9	Review Exercises	105
11.10	Review Questions.....	106
Chapter 12 Asking Questions - The if Structure.....		107

12.1	The <code>if</code> Structure.....	107
	Exercise 12.1.1 – Find Out What is Displayed.....	109
	Exercise 12.1.2 – Are you Allowed to Drive a Car?.....	110
	Exercise 12.1.3 – Finding Minimum and Maximum Values with <code>if</code> Structures	110
	Exercise 12.1.4 – Finding the Name of the Heaviest Person	112
12.2	Review Questions: True/False.....	113
12.3	Review Questions: Multiple Choice.....	113
12.4	Review Exercises	114
12.5	Review Questions	116
Chapter 13 Asking Questions - The <code>if-else</code> Structure		117
13.1	The <code>if-else</code> Structure.....	117
	Exercise 13.1.1 – Finding the Output Message	118
	Exercise 13.1.2 – Who is the Greatest?	118
	Exercise 13.1.3 – Converting Gallons to Liters, and Vice Versa.....	119
13.2	Review Questions: True/False.....	120
13.3	Review Questions: Multiple Choice.....	121
13.4	Review Exercises	122
Chapter 14 Asking Questions - The <code>if-else-if</code> Structure		125
14.1	The <code>if-else-if</code> Structure.....	125
	Exercise 14.1.1 – Find Out What is Displayed.....	126
	Exercise 14.1.2 – Counting the Digits	127
	Exercise 14.1.3 – The Days of the Week	129
	Exercise 14.1.4 – Where is the Tollkeeper?	129
14.2	Review Questions: True/False.....	130
14.3	Review Exercises	131
Chapter 15 Asking Questions - Nested Structures		135
15.1	Nested Decision Structures.....	135
	Exercise 15.1.1 – Find Out What is Displayed.....	136
	Exercise 15.1.2 – Positive, Negative, or Zero?.....	137
	Exercise 15.1.3 – The Most Scientific Calculator Ever!.....	138
15.2	Review Questions: True/False.....	139
15.3	Review Exercises	139
15.4	Review Questions	140
Chapter 16 Doing Loops.....		141
16.1	What is a Loop Structure?	141
16.2	From Sequence to Loop Structure.....	141
16.3	Review Questions: True/False.....	143

Chapter 17 Doing Loops - The do-while-loop and the do-loop-while Structures	145
17.1 The do-while-loop Structure	145
Exercise 17.1.1 – Counting the Total Number of Iterations	146
Exercise 17.1.2 – Finding the Sum of Four Numbers	146
Exercise 17.1.3 – Finding the Sum of Positive Numbers.....	147
Exercise 17.1.4 – Finding the Sum of N Numbers.....	148
Exercise 17.1.5 – Finding the Sum of an Unknown Quantity of Numbers.....	149
Exercise 17.1.6 – Finding the Product of Five Numbers	150
17.2 The do-loop-while Structure	151
Exercise 17.2.1 – Counting the Total Number of Iterations	152
Exercise 17.2.2 – Counting 2-digit Numbers	153
Exercise 17.2.3 – How Many Numbers Fit in a Sum	153
17.3 Review Questions: True/False.....	154
17.4 Review Questions: Multiple Choice.....	155
17.5 Review Exercises	157
Chapter 18 Doing Loops - The for and the for-each Structures	161
18.1 The for Structure.....	161
Exercise 18.1.1 – Find Out What is Displayed.....	163
Exercise 18.1.2 – Find Out What is Displayed.....	164
Exercise 18.1.3 – Finding the Sum of Four Numbers	164
Exercise 18.1.4 – Finding the Average Value of N Numbers	165
18.2 The for-each Structure	166
18.3 Review Questions: True/False.....	167
18.4 Review Questions: Multiple Choice.....	168
18.5 Review Exercises	170
Chapter 19 Doing Loops - Nested Structures	173
19.1 Nested Loop Structures.....	173
Exercise 19.1.1 – Counting the Total Number of Iterations.	174
Exercise 19.1.2 – Find Out What is Displayed.....	175
19.2 Review Questions: True/False.....	175
19.3 Review Questions: Multiple Choice.....	176
19.4 Review Exercises	178
Chapter 20 Tips and Tricks with Loop Structures	181
20.1 Introduction.....	181
20.2 Choosing a Loop Structure.....	181
20.3 The “Ultimate” Rule	182
20.4 Breaking Out of a Loop.....	185

20.5	Endless Loops and How to Avoid Them.....	186
20.6	The “From Inner to Outer” Method.....	187
20.7	Review Questions: True/False.....	189
20.8	Review Questions: Multiple Choice.....	189
20.9	Review Exercises.....	190
Chapter 21 More Exercises with Loop Structures		193
21.1	Exercises of a General Nature with Loop Structures.....	193
	Exercise 21.1.1 – Finding the Sum of $1 + 2 + 3 + \dots + 100$	193
	Exercise 21.1.2 – Finding the Product of $2 \times 4 \times 6 \times 8 \times 10$	194
	Exercise 21.1.3 – Finding the Average Value of Positive Numbers.....	195
	Exercise 21.1.4 – Counting the Numbers According to Which is Greater.....	196
	Exercise 21.1.5 – Counting the Numbers According to Their Digits.....	197
	Exercise 21.1.6 – Iterating as Many Times as the User Wants.....	198
	Exercise 21.1.7 – Finding Minimum Value with Loop Structures.....	199
	Exercise 21.1.8 – Fahrenheit to Kelvin, from 0 to 100.....	200
	Exercise 21.1.9 – Rice on a Chessboard.....	201
	Exercise 21.1.10 – Game – Find the Secret Number.....	202
21.2	Review Exercises.....	203
Chapter 22 Turtle Graphics		205
22.1	Introduction.....	205
22.2	The x-y Plane.....	205
22.3	Where is the Turtle?.....	207
22.4	Moving Forward and Backward.....	210
22.5	Turning Left and Right.....	212
	Exercise 22.5.1 – Drawing a Rectangle.....	213
	Exercise 22.5.2 – Drawing a Rectangle of Custom Size.....	214
22.6	Set the Orientation to a Specified Angle.....	215
22.7	Setting the Delay.....	216
22.8	Changing Pen’s Color and Size.....	217
22.9	Pulling Turtle’s Pen Up or Down.....	218
	Exercise 22.9.1 – Drawing a House.....	219
22.10	Moving a Turtle Directly to a Specified Position.....	221
22.11	Using Decision and Loop Structures with Turtles.....	222
	Exercise 22.11.1 – Drawing Squares of Different Sizes.....	225
	Exercise 22.11.2 – Drawing Houses of Different Sizes.....	226
	Exercise 22.11.3 – Drawing Polygons.....	228
	Exercise 22.11.4 – Drawing a Star.....	229
	Exercise 22.11.5 – Drawing Random Stars at Random Positions.....	230
	Exercise 22.11.6 – Using Decision Structures to Draw Stars.....	232

22.12 Review Exercises	233
Chapter 23 Data Structures in Visual Basic	237
23.1 Introduction to Arrays.....	237
23.2 What is an Array?	238
Exercise 23.2.1 – Designing an Array	238
Exercise 23.2.2 – Designing Arrays	239
23.3 Creating Arrays in Visual Basic.....	240
23.4 How to Get a Value from an Array.....	241
Exercise 23.4.1 – Find What is Displayed	241
Exercise 23.4.2 – Using a Non-Existing Index in Arrays	242
23.5 How to Alter the Value of an Array Element.....	243
23.6 How to Iterate Through an Array	243
Exercise 23.6.1 – Finding the Sum	245
23.7 How to Add User-Entered Values to an Array.....	246
Exercise 23.7.1 – Displaying Words in Reverse Order	246
Exercise 23.7.2 – Displaying Positive Numbers in Reverse Order.....	247
Exercise 23.7.3 – Finding the Sum	248
Exercise 23.7.4 – Finding the Average Value.....	249
Exercise 23.7.5 – Displaying Reals Only	249
Exercise 23.7.6 – Displaying Odd Indexes Only.....	250
23.8 What is a Dictionary?	251
23.9 Creating Dictionaries in Visual Basic.....	251
23.10 How to Get a Value from a Dictionary.....	252
Exercise 23.10.1 – Using a Non-Existing Key in Dictionaries	253
23.11 How to Alter the Value of a Dictionary Element.....	253
Exercise 23.11.1 – Assigning a Value to a Non-Existing Key.....	254
23.12 How to Iterate Through a Dictionary	254
23.13 Useful Methods and Properties	255
23.14 Review Questions: True/False.....	257
23.15 Review Questions: Multiple Choice.....	261
23.16 Review Exercises	265
23.17 Review Questions	267
Chapter 24 More Exercises with Arrays	269
24.1 Simple Exercises with Arrays.....	269
Exercise 24.1.1 – Creating an Array with the Greatest Values	269
Exercise 24.1.2 – On Which Days Was There a Possibility of Snow?.....	270
Exercise 24.1.3 – Was There Any Possibility of Snow?	270
24.2 How to Use More Than One Arrays in a Program	272
Exercise 24.2.1 – Finding the Average Value.....	272

Exercise 24.2.2 – Using an Array Along with a Dictionary.....	274
24.3 Finding Minimum and Maximum Values in Arrays.....	275
Exercise 24.3.1 – Which Depth is the Greatest?	275
Exercise 24.3.2 – Which Lake is the Deepest?.....	276
Exercise 24.3.3 – Which Lake, in Which Country, Having Which Average Area, is the Deepest?.....	277
Exercise 24.3.4 – Which Students are the Shortest?	279
24.4 Searching Elements in Data Structures	281
Exercise 24.4.1 – Searching in an Array That May Contain the Same Value Multiple Times.....	281
Exercise 24.4.2 – Display the Last Names of All Those People Who Have the Same First Name.....	281
Exercise 24.4.3 – Searching in an Array that Contains Unique Values	282
Exercise 24.4.4 – Searching for a Given Social Security Number	283
24.5 Review Questions: True/False.....	284
24.6 Review Exercises	284
Chapter 25 Introduction to Subprograms	287
25.1 What is a Subprogram?.....	287
25.2 What is Procedural Programming?.....	287
25.3 What is Modular Programming?	288
25.4 Review Questions: True/False.....	289
25.5 Review Questions.....	289
Chapter 26 User-Defined Subprograms	291
26.1 Subprograms that Return Values.....	291
26.2 How to Call a Function.....	292
26.3 Subprograms that Return no Values	295
26.4 How to Call a Procedure	295
26.5 Formal and Actual Arguments	297
26.6 How Does a Subprogram Execute?.....	298
26.7 Can Two Subprograms Use Variables of the Same Name?	299
26.8 Can a Subprogram Call Another Subprogram?.....	300
26.9 Default Argument Values and Named Arguments.....	301
26.10 The Scope of a Variable.....	302
26.11 Review Questions: True/False.....	304
26.12 Review Exercises	306
26.13 Review Questions.....	307
Chapter 27 More Exercises with Subprograms	309
27.1 Some More Exercises for Extra Practice	309
Exercise 27.1.1 – Back to Basics – Calculating the Sum of Two Numbers.....	309
Exercise 27.1.2 – Calculating the Sum of Two Numbers Using Fewer Lines of Code!.....	309
Exercise 27.1.3 – A Simple Currency Converter.....	310
Exercise 27.1.4 – A More Complete Currency Converter	311

Exercise 27.1.5 – Finding the Average Values of Positive Integers	313
Exercise 27.1.6 – Roll, Roll, Roll the... Dice!	314
27.2 Review Exercises	315
Chapter 28 Object-Oriented Programming.....	319
28.1 What is Object-Oriented Programming?.....	319
28.2 Classes and Objects in Visual Basic	320
28.3 The Constructor and the Keyword Me.....	322
28.4 Passing Initial Values to the Constructor.....	324
Exercise 28.4.1 – Historical Events.....	325
28.5 Getter and Setter Methods vs Properties.....	327
Exercise 28.5.1 – The Roman Numerals	331
28.6 Can a Method Call Another Method of the Same Class?.....	334
Exercise 28.6.1 – Doing Math.....	334
28.7 Class Inheritance.....	335
28.8 Review Questions: True/False.....	341
28.9 Review Exercises	342
28.10 Review Questions.....	346
Some Final Words from the Authors	347
Index	349
